DETAILED ACTION

Allowable Subject Matter

1. Claims 3 and 4 are allowed.
2. The following is an examiner's statement of reasons for allowance: Giving weight to the preamble language of the claim and as is known in the art of footwear, upper and liners have distinct structure and function and thus taking this into consideration there was no prior art found that teaches or suggests a footwear upper that additionally functions as a liner and is comprises thermally point bonded nylon fibers in the form of a nonwoven which is coated via dip coagulation with polyurethane.
3. Baldwin et al (USPN 5134017) appears to be the closest prior art, but fails to suggest the duality, i.e. the use of the composite as both an upper and a liner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
